FEBRUARY AMERICANS.

February seems to have been a favorite month for Americans of past years to be born, perhaps because Washington and Lincoln were born in this month, at any rate among the comrades of Lore Post G. A. R. the February birthdays come thick and fast. Last week we recorded the birthday celebration of Comrade P. H. Bayes and this week we have two more to chronicle.

On Wednesday at "high noon" thirty-five of the comrades and associates of the Post and twenty-three or more of the ladies of the Relief Corps gathered at the home of Comrade Simon Boyers to help him celebrate his seventieth birthday anniversary. As usual, the Woman's Relief Corps had full charge of the celebration. Department and served the assembly with a bounteous dinner. After the dinner, some old time war songs were sung and then Associate Rev. J. A. Wharton was detailed to instruct Comrade Boyers concerning the feelings of his comrades concerning himself; this Mr. Wharton did in a very pleasing manner reviewing briefly the life of Comrade Boyers and extending the hearty congratulations of the Post and Relief Corps to him and presenting as a token of their esteem a fine oak rocking chair. Comrade Boyers answered the address of Rev. Wharton by a fitting speech in which he recalled his birth place, a log cabin near Spring Hill and the experiences through which he and his comrades passed during the sixties. Mrs. Wright gave a pleasing recitation and others who were present gave brief talks.

On Thursday at noon, twenty-four G. A. R. men and twenty-five Corps women gathered at the home of Alonzo Marks, the occasion being his seventy-fourth birthday anniversary, the program of Wednesday was repeated with variations. A fine dinner was served by the ladies; Comrade Marks was presented with a fine oak rocker. Mrs. Wright gave some entertaining recitations and there were some short talks from Comrades Miller, Rorick and others. Everybody had a good time.

Young Man, Read This

If a man locks his barn after the horse is stolen, well and good. He has learned a valuable lesson.

If, however, his bump of caution causes him to lock the barn as soon as he puts the horse in it, he exhibits a much keener sense of business acumen.

Raise 300 to 500 Chicks in One Flock

Buy or hatch at one time all the chicks you will need for the year. Then with the Candee Colony Brooder, raise 300 to 500 in one flock in one house—attend only one heater—buy coal for but one fire—and save labor, fuel, chicks and money.

Because it is coal burning and self-regulating and gives the chicks a correct heat all the time, you will raise the biggest percentage of your birds with no worry, no trouble and at an expense of but a few cents a day for coal.

With the Big Coal-Burning Cast Iron Colony Brooder

Every thing about the Candee is big. Its grate is 12 inches in diameter, a safe size; its hovers are 28 1/2 inches high—as high as a table or desk—and 13 feet 7 inches in circumference; the section of its cover, that swings around out of the way for tending the fire and cleaning, is 38 1/2 inches wide and gives plenty of room for the operator to get to the heater.

And best of all, its heater is all cast iron, built for real business and to last a lifetime. It comes to you all assembled ready to set up and put to work.

Its guaranteed all-woven-wool felt curtain extends nearly to the floor, and positively directs the heated air down over the backs of the chicks; and it saves fuel because, with the felt curtain, you don't have to heat the whole room to keep the chicks warm.

With the Candee, there is no danger of your buildings catching fire—it has a special safety grate shaker and a sealed base that prevent hot coals falling into the litter. Its coal magazine feeds the fuel to the fire evenly and continuously, and the Candee heater requires attention only once or twice a day.

You are invited to visit my poultry plant to see the Candee Colony Brooder, and to see for yourself why it will save you labor and fuel, raise more of your chicks and increase your profits.
